Education

(Dec 2022)

Masters in Computing System
Computing Sys and Infra Major
BITS PILANI UNIVERSITY
– Bangalore, WILP

Key Skills

Vue JS

React JS/TS

Node JS

Redux

Python

Mongo DB

Material UI, Bootstrap, Tailwind

Interest to learn new skills

Profile

As a frontend developer, I am passionate about creating user-friendly , performance optimized websites and applications. I have experience using various programming languages such as React, Vue, JS, TS to bring designs to life and make them functional. I work closely with designers to ensure that the final product is easy to navigate. I am committed to testing and debugging my code to ensure that the website or application is responsive and accessible on different devices.

Professional Experience

SDE – II

StepChange – Bangalore, IN

Jan 2023

– Present

- Lead the frontend development team while being active in the backend architecture, UI design, Product team by providing various inputs.
- Empower internal users with a dynamic form builder enabling creation of intricate forms with tables, dynamic columns, formulas, text fields, and drop-downs. Additionally, manage users and tenants, assigning users to specific tenants.
- Developed web applications using React TS, handson table, Ag Grid, Redux so on.
- Worked on documentation part, test cases, creating small utilities using Python.
- Code optimization, code structure and PR is always a continuous process and a top priority.

SDE - I

Wipro – Bangalore, IN

Mar 2019

– Dec 2022

- Built Web Application from scratch which includes libraries like Three JS for 3D along with Textures, Ag-Grid for complex tables.
- Being a developer, I Used to work on various technology like Vue JS, Rest API, Python and Graph QL.
- Contributing insights and solutions for performance optimization that positively impacted the overall efficiency and user experience of the applications.
- Managed to maintain 2 applications while creating 3 more applications from scratch.
- Worked with senior most developers, product owners, directors, managers across the world to build feasible tools.
- Had a privilege to work directly with IT director of a billion dollar company.
